## MISSION AND DESCRIPTION:

Institution Mission Statement: To provide students worldwide with professional, competency-based, multi-modal technology-enabled, higher education that can empower them to achieve their professional goals.

Areas of Special Focus: General Engineering and Education

Description of Institution: University of Pasadena (UPAS) was founded in 2012 by a group of eminent Educationists and entrepreneurs with a vision to create an educational institution that will enable our students to be competent professionals and lifelong learners in the fields of engineering and education.

All instruction at UPAS is on-line and is considered distance education. We believe that students with just knowledge of what is thought or learned is not sufficient to be successful in their career, they also need to build their skills and abilities as well. Hence we have adopted an innovative approach of competency-based education

model that incorporates tasks, projects and activities that will help our students achieve their career goals and also help them to think as entrepreneurs.

At UPAS we leverage the latest technologies and one of the best learning platforms available to help our students learn from customized and easy to learn content from anywhere, at any time of the day, and also get the best one-on-one coaching and mentoring when needed from our eminent faculty.

Student Demographic Profile: 50% male and 50% female, approximately 60% of our students reside in the United States. The diversity of our students range from many different areas including but not limited.
